CUSHIONI Silk Wallpaper is a cushioned, silk-texture wall covering with a self-adhesive back. It goes straight over the wall you already have, so a dated or stained room can be refreshed in an afternoon, by one person, with no mess.

Key features

- **Peel and stick.** Peel off the release film and apply it like a sticker. Scissors or a utility knife are the only tools needed.
- **Goes over what is already there.** Applies over existing wallpaper, cement, metal, glass, wood and tile, with no stripping.
- **Soft, cushioned 8-layer sheet, about 1 mm thick.** The foam base gives a full, thick feel and helps hide minor unevenness in the wall.
- **Two emboss patterns.** Grid (FW-01), a fabric-like woven look; Vertical (FW-02), fine stripes that help hide seams.
- **Clean and quick.** No paste, water or drying time. The room is usable right away.
- **Retail and project formats.** 2.5 m and 5 m rolls for store shelves, 10 m rolls for projects.

7 colors, 2 textures, 3 roll lengths.

Where it works

- Living-room accent walls, bedrooms and kids' rooms
- Entryways, home offices, shops and studios
- A quick refresh over old, stained or dated wallpaper
- DIY and home-improvement shelves in home centers and variety stores

For best results, wipe dust, oil and moisture off the wall first. Avoid very uneven or flaking surfaces, areas next to stoves and places that stay wet. Test in a hidden spot first.
